# **COMPOSITION ORNAMENTS MODERNE**

In this booklet we present  
a variety of illustrations  
showing the moderne trend in  
composition wood carving.

The demand for this type of ornamentation has become so widespread that we felt that a compilation of the many moderne designs which have been prepared in our studios would be genuinely useful.

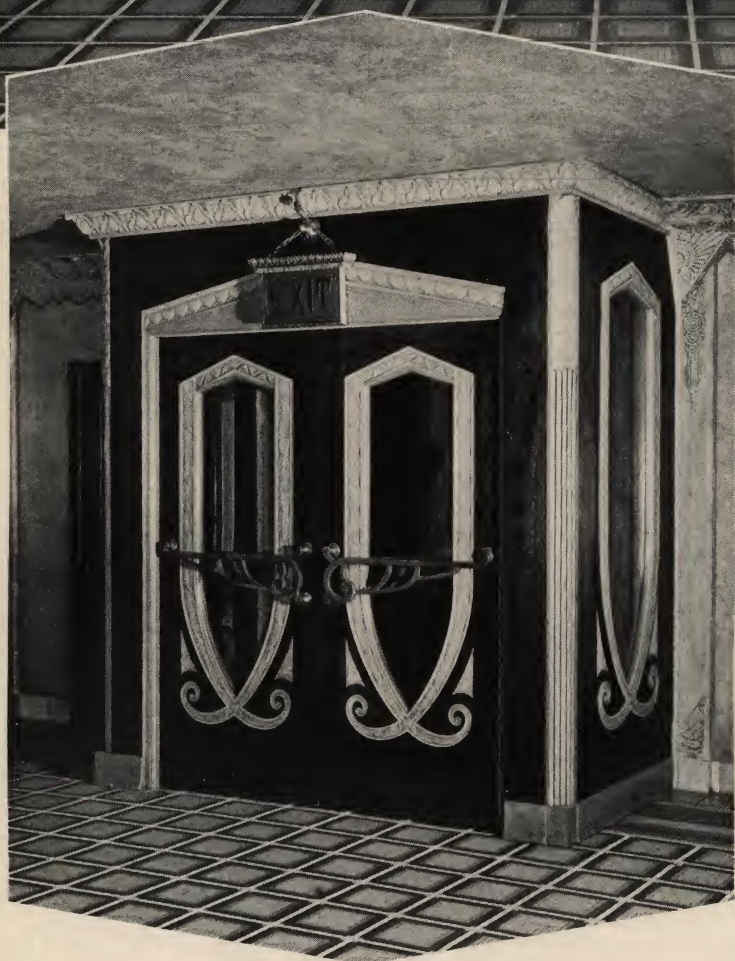

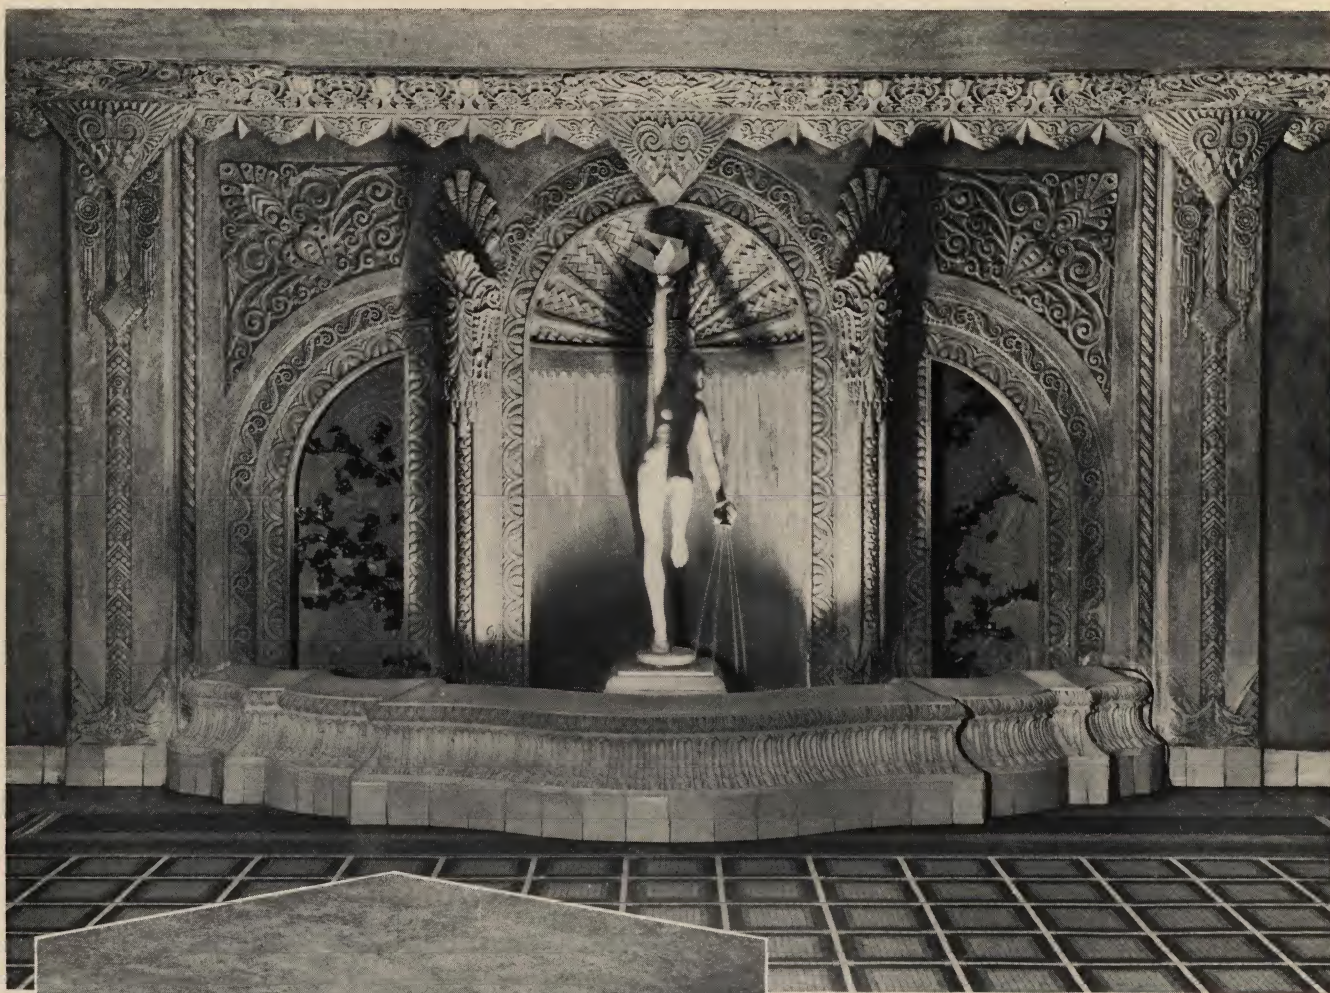

Composition is exceedingly elastic in its uses. The photographs of actual work on the following pages show a few of the numberless combinations which may be had with composition ornament moderne. With a little ingenuity in planning and a small amount of patience in piecing together the designs you can secure many wonderful new effects with this convenient and inexpensive material.

### *Foyer in the Moderne*

In this beautiful treatment of a fountain in the foyer of the Paradise Theatre our moderne plaster ornaments played a prominent part. Below, a vestibule enclosure of the theatre, treated with moderne composition ornament.

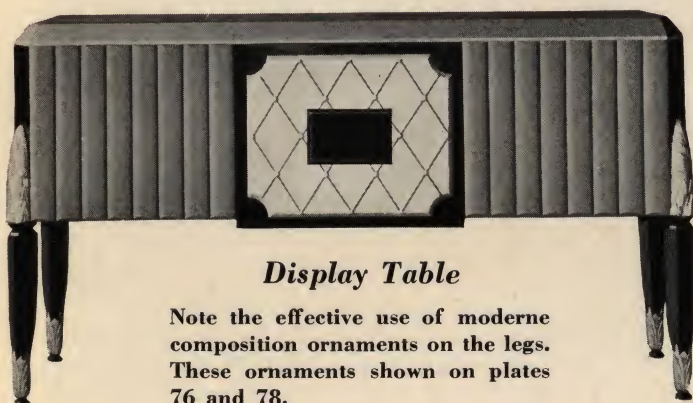

# A MESSAGE TO THE ARCHITECTS

Here are a few specific examples which show how readily our moderne designs may be made up into unusually attractive combinations.

Bear in mind that this moderne line comprises but a fraction of the many thousand patterns of other period designs which we can supply. Our catalog 200, of which this book is merely a supplement, shows the complete line and is still available.

Whenever you are economizing on design, and where special modelling is not advisable, we urge that you make use of our standard period plaster ornaments. In this connection your attention is called to our book of designs No. 12. We are about to publish volume 2 of this book and suggest that you instruct us to mail you a copy. This new volume will show a wealth of the latest moderne plaster ornaments as well as other period designs.

*Display Table*

Note the effective use of moderne composition ornaments on the legs. These ornaments shown on plates 76 and 78.

*Display Background*

Here is a practical application of the composition ornament moderne as shown on plates 76 and 77.

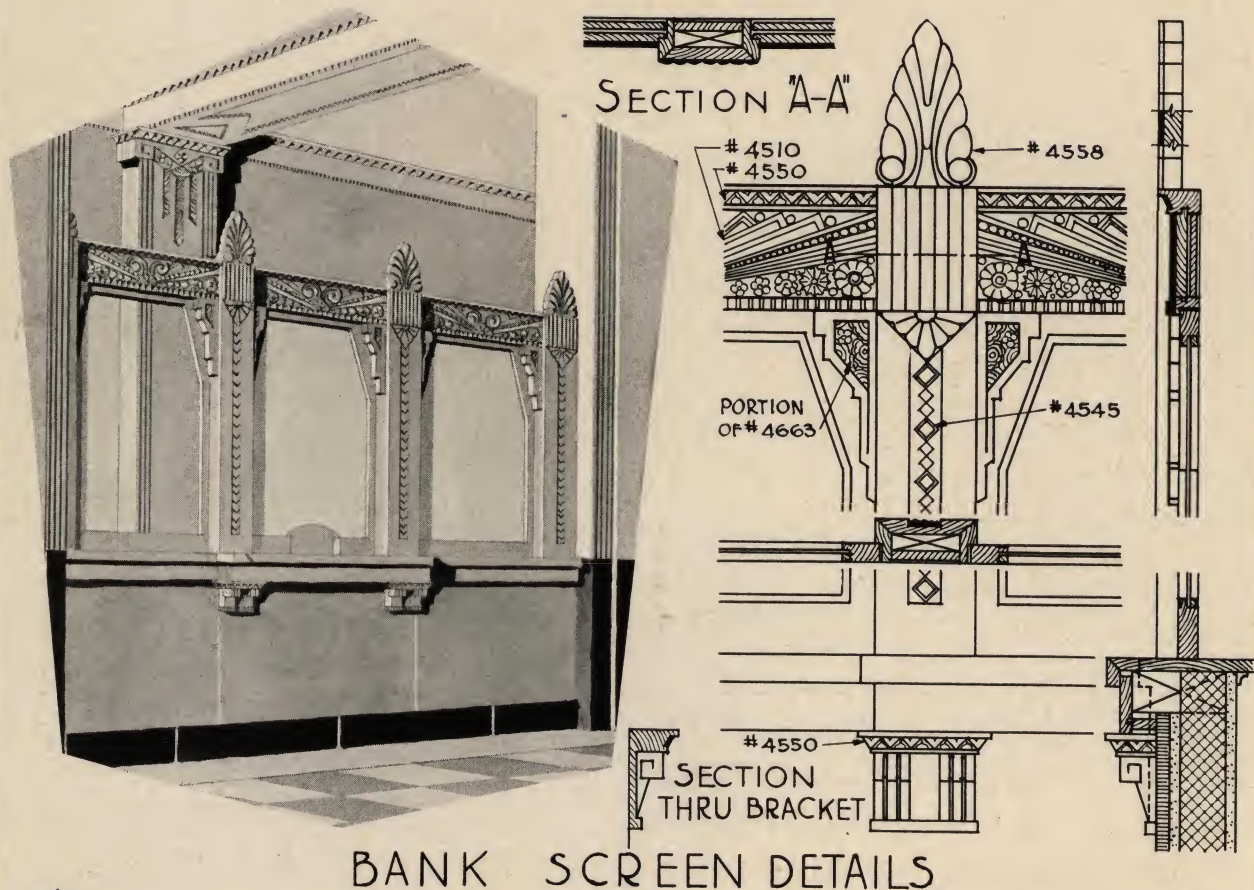

*Pilaster of Poster Frame*

A handsome specimen of the use of the moderne treatment.

# COMPOSITION ORNAMENT

## A TYPICAL APPLICATION

BANK SCREEN DETAILS

**T**HE pen and ink drawing above shows the architectural construction of a Bank Screen. By studying this drawing you can easily see how composition ornament is used. We would like to call attention to the importance of accurate cutting of the wood bed upon which the ornament is to be applied. We will be glad to send you a full size profile of any of our ornaments on request. Caps and brackets are furnished with a wood core, and are a complete unit.
